

**Appointment of Director of the  
Spanish Institute of Mathematics (Instituto Español de Matemáticas, IEMath)**

Open call

According to the regulations established by the Government of Spain on December 24, 2007 (see <http://www.boe.es/boe/dias/2007/12/24/pdfs/A53153-53158.pdf>), the IEMath has the following goals:

1. To foster high quality mathematical research, coordinating active research groups and promoting interdisciplinary cooperation with other areas of Science, Technology and Social Sciences.
2. To promote the access of young researchers to training and mobility programs and to support the development of their academic careers.

The director's duties will be the following:

1. To preside over the Executive Committee of IEMath.
2. To plan, coordinate and supervise IEMath activities. Particular attention will be paid to training of young scientists.
3. To actively search for external funding.

The director is appointed for a four-year term which can be renewed only once for a second four-year term. Salary will be determined according to his/her experience and qualifications, starting at 100.000 EURO per year.

The director is required to establish residence in Spain, to have experience in research and management, and a working knowledge of Spanish.

Additional information can be found at the web page <http://www.iemath.es>.

Candidates should send, by registered mail and not later than February 20<sup>th</sup>, a CV, including a list of publications, and a letter of intent to the following address:

Prof. Antonio Díaz-Cano Ocaña,  
(Secretary of the Committee)  
Departamento de Álgebra, Facultad de Ciencias Matemáticas  
Pza. de las Ciencias 3, Universidad Complutense  
28040 Madrid

This information should also be sent to the e-mail address [director.iemath@mec.es](mailto:director.iemath@mec.es) and should not exceed 4 MB.
